<b>8 lesson - 16 hours</b>	180 €		

**All classes take 2 hours, maximum of 7 trainees per instructor.**

**Individual classes according to availability of instructors.**

**All equipment included (wetsuit, surfboard, leash...)**

The school was founded in 2004 by two of the most respected and charismatic surfers in Europe, the brothers Dani and Raúl García. Special Surfing School was founded with the intention to bring over of their knowledge and experience of over twenty years of surfing and surfing competitions at the most exciting spots around the globe, regardless of the level of the surfer.

- ✓ Initiation
- ✓ Perfection
- ✓ Competition

To achieve this the mobile surf school was founded of which Dani & Raúl are pioneers in Spain. The mobile school searches the best waves according to the level of the student and the swell.

Both brothers were also pioneers in using technical equipment like the waterproof radio-controlled headsets they brought from Australia to assist the trainee in the water and rectify from the beach and in real time. The school also uses video recordings, so it can be shown how the student can improve his skills.

Our philosophy goes far beyond the summer months and the school is therefore open year round. This gives the trainees the opportunity to improve their skills on the excellent and less busy winter waves.

At Special Surf we are truly proud of our staff, you'll notice that your instructor is not only a good teacher but also an excellent free surfer, competition surfer, rescuer or board shaper.

Look for the blue minivan at the main beach in Liencres (Valdearenas)!
